HIGHLIGHTS

Day Solution and Advant participated in activities on campus from volleyball, cornhole, bocce, cardio drumming, and basketball. In the afternoon they danced and had some fun singing some karaoke!

Friday, June 28th Jefferson City High School arrived on campus to play volleyball, basketball, cornhole, and workout in the fitness center.

We welcomed First Step to the campus for the first time and they learned all about our YAP activities that we have. They learned how to toss, walk on a balance beam, and ride a bike!

Special Learning Center continues to come over for their Young Athlete program weekly! They learn some fundamentals of different sports that we offer. Some of their favorites are riding the scooters, learning golf, and listening and dancing to music!

If you are interested in having a group or just an individual come to our campus to see what Special Olympics and the TLC has to offer please reach out to me!
