## **SPECIAL OLYMPICS LANGUAGE GUIDE**

*Words matter. Words can open doors to enable persons with disabilities to lead fuller, more independent lives. Words can also create barriers or stereotypes that are not only demeaning to persons with disabilities, but also rob them of their individuality. The following language guidelines have been developed by experts in intellectual disabilities for use by anyone writing or speaking about persons with disabilities to ensure that all people are portrayed with individuality and dignity.*

### **Appropriate Terminology**

- *Refer to participants in Special Olympics as Special Olympics athletes rather than Special Olympians or Special Olympic athletes.*
- *Refer to people with intellectual disabilities as individuals, persons or people with intellectual disabilities, rather than intellectually disabled people or the intellectually disabled.*
- *A person has intellectual disabilities, rather than is suffering from, is afflicted with or is a victim of intellectual disabilities.*
- *Distinguish between adults and children with intellectual disabilities. Use adults or children, or older or younger athletes.*
- *A person uses a wheelchair, rather than is confined or restricted to a wheelchair.*
- *“Down Syndrome” has replaced Down’s Syndrome and mongoloid.*
- *Refer to participants in Special Olympics as athletes. In no case should the word athletes appear in quotation marks.*
- *When writing, refer to persons with a disability in the same style as persons without a disability: full name on first reference and last name on subsequent references. Do not refer to an individual with an intellectual disability as “Bill” rather than the journalistically correct “Bill Smith” or “Smith.”*
- *A person is physically challenged or disabled rather than crippled.*
- *Use the words “Special Olympics” when referring to the worldwide Special Olympics movement.*

### **Terminology to Avoid**

- *Do not use the label “kids” when referring to Special Olympics athletes. Adult athletes are an integral part of the movement.*
- *Do not use the word “the” in front of Special Olympics unless describing a specific Special Olympics event or official.*
- *Do not use the adjective “unfortunate” when talking about persons with intellectual disabilities. Disabling conditions do not have to be life-defining in a negative way.*
- *Do not sensationalize the accomplishments of persons with disabilities. While these accomplishments should be recognized and applauded, people in the disability rights movement have tried to make the public aware of the negative impact of referring to the achievements of physically or intellectually challenged people with excessive hyperbole.*

- *Use the word “special” with extreme care when talking about persons with intellectual disabilities. The term, if used excessively in references to Special Olympics athletes and activities, can become a cliché.*

***Policies and Guidelines for  
Coaches, Volunteers, and  
Chaperones***

## ***MINIMUM AGE for COACHES, CHAPERONES & VOLUNTEERS***

*All head coaches and chaperones must be at least 18 years old, and one adult, at least 21 years old, shall accompany each agency. Unified Partners will not be counted as an athlete as part of the one-to-four ratio of coaches to athletes unless they are under the age of 16, and they will not be counted as a chaperone as part of the one-to-four ratio unless they are 18 or older and meet all Chaperone requirements.*

*For day-of volunteers, there shall be no minimum age as long as anyone under the age of 14 is accompanied by an adult of at least 21 years old.*

---

## ***COACHING LEVELS / COACHES' TRAINING***

*Coaches teach the skills and spirit that define a true athlete. Coaches are role models and character-builders. Special Olympics coaches go even further. They help athletes with intellectual disabilities find and develop their own strengths and abilities, helping them improve every day.*

*As a Special Olympics coach, you bring enthusiasm, commitment and a positive attitude to each practice, event, and competition. You will enrich the lives of our athletes in many life-changing ways. The skills and confidence which athletes learn through sports have deep and lasting effects. They can help an athlete succeed in school, find a job, and make a positive impact in their communities.*

*Coaches also receive a lot in return. They get to know athletes who inspire others, athletes who are brave and determined, despite the odds against them. Coaches become more than teachers, mentors, and role models. They are seen as leaders in the community.*

***Special Olympics Missouri requires that all agencies have a certified head coach in the respective sport.***

***Team Sports:*** Each team must have one head coach. A head coach may only be the coach of one team. The coach's name submitted on the entry form must be that of a certified head coach. The head coach must be on the field or on the court with the team during all competition. In the event of an emergency, a certified assistant coach may take over as the head coach, but this shall require prior approval by the Director of Sports Competition and Statewide Training. For example, if you have four 3-on-3 teams you need to have four different head coaches. Only a head coach may file a protest.

***Individual Sports:*** The coach's name submitted on the entry form must be that of a certified head coach. It is not necessary to have a certified head coach present at each venue where athletes participate, however only a head coach may file a protest.

*As we continue to recover from the COVID Pandemic, the following Coaching Levels will be rolled out in phases. Contact your Area Program Staff with questions regarding current requirements for coaches. To find your Area, please go here: <https://somo.org/areas/>*

## **COACHING LEVELS**

*Listed below are the levels and requirements of coaches that Special Olympics Missouri will recognize. Local and area coaches must have a **minimum certification of Level 1 – Sport Assistant.***

***Level 0 – Chaperone:*** An individual who accompanies athletes, coaches, and/or teams to help ensure safety, appropriate behavior, and order. Minimum age for Chaperones is 18.

***Level 1 – Sport Assistant:*** An individual who has the primary responsibility of supporting the assistant and/or head coach (i.e. – keeping track of medical form, assisting with drills, keeping time/score, setting up equipment, etc.). This level introduces you to the basics of Special Olympics, and it is ideal for those interested in preparing to become a coach but not ready to commit to a full coaching role. (Minimum age is 16 (cannot be a Chaperone until 18).

***Level 2 – Certified Assistant Coach:*** An individual whose responsibilities involve assisting with setting up practice schedules and lesson plans, observing and assisting during practice and games, running a practice in the absence of head coach, leading drills, etc. Under the supervision of a more experienced coach, this level will prepare you for taking on higher level coaching duties. Minimum age is 16 (cannot be a Chaperone until 18).

***Level 3 – Certified Head coach:*** The head coach is responsible for providing athletes with comprehensive sport training and preparation for multi-level sport competitions. Minimum age is 18. Duties could include the following:

- *Provide proper planning for each step of training and competitions*
- *Provide and maintain a safe and secure physical environment*
- *Use acceptable and safe equipment*
- *Ensure appropriate sport skills instruction and safe competition*
- *Match athletes according to ability, size, and strength. Continually assess each athlete for participation in appropriate activities within and not challenged beyond their capabilities.*

## **SPECIAL OLYMPICS POLICY REGARDING VOLUNTEERS and STAFF DATING SPECIAL OLYMPICS ATHLETES**

*Effective February 22, 2005*

*Board Approved August 18, 2007*

### **INTRODUCTION:**

*Among the Special Olympics movement's highest priorities is the wellbeing of, and respect for the dignity of, Special Olympics athletes. The purpose of this document is to make clear Special Olympics policy on volunteers and staff dating Special Olympics athletes and to protect all participants in the Special Olympics movement, including athletes, coaches and staff, as well as Special Olympics organizations around the world.*

*Every Special Olympics Program must take all reasonable steps to ensure that athletes participating in Special Olympics do so in an environment that is free from abuse, intimidation, fear, pressure or coercion from any person in a position of authority, including Special Olympics staff, coaches, and other volunteers. At the same time, Special Olympics respects the right of every Special Olympics athlete to be treated with dignity and to have the same rights as every other human being.*

### **POLICY:**

*Special Olympics prohibits any Special Olympics staff member or volunteer from dating or having a sexual relationship with any Special Olympics athlete. In the event that a Special Olympics organization learns of any dating or sexual relationship, the organization immediately shall require either: i) that the staff member or volunteer end his or her association with Special Olympics; or ii) that the association between the staff member or volunteer and Special Olympics will be terminated.*

*In the case of a Special Olympics athlete who is also a staff member or volunteer, the President/CEO must evaluate the circumstances on a case-by-case basis and determine if an authority relationship exists between the staff/volunteer athlete and the competing athlete, and if it is determined that there is such a relationship, then apply the above policy in the same manner as the policy is applied to non-athlete staff or volunteers.*

*Special Olympics Program should determine whether it is required by its national or local laws to report certain relationships between Special Olympics staff or volunteers and Special Olympics athletes to the appropriate authorities under any "mandatory reporting" or other requirements in place for that Program's jurisdiction, and comply with those requirements.*

*Special Olympics respects the right of athletes to have the full range of human relationships available to other human beings. This policy shall not be interpreted as a limitation on the rights of athletes, but only as a restriction on Special Olympics staff and volunteers.*

---

## ***SUPERVISION GUIDELINES for COACHES, VOLUNTEERS and CHAPERONES***

*Common sense can play a large part in avoiding problems when any volunteer is with the athletes. Our athletes depend upon the guidance of the coaches, chaperones, and volunteers. The relationship between the athletes and all volunteers creates a trust, which allows the program to function smoothly and efficiently. If this trust is broken, then the athlete and the program itself can suffer. In order to maintain the relationship between athletes and coaches, guidelines for supervision must be implemented. These guidelines are to protect the athletes, all volunteers and the integrity and credibility of the program.*

### ***Personal:***

- 1. Maintain a minimum ratio of one chaperone/coach per four athletes.*
- 2. No volunteer should place himself or herself in a position that could be construed as compromising.*
- 3. Only touch athletes in ways that are acceptable for the sports activity or social activity.*
- 4. Do not make comments that might lead an athlete to think a relationship is more than program related.*
- 5. Any inappropriate behavior observed, whether by athletes, coaches or chaperones, should be reported to the area staff and dealt with immediately. A follow-up written report should be given to the area staff as soon as possible.*
- 6. All SOMO representatives must conform to the Special Olympics Missouri Code of Conduct.*

### ***Transportation:***

- Coaches and Chaperones should be strategically placed on the bus.*
  - Coaches and Chaperones should be aware of what is going on around them at all times.*
  - On trips that are several hours long or occur during darkness, the coaches and chaperones should change seats periodically.*
- 

## ***ATHLETE HOUSING POLICY***

***Effective January 1, 2014***

***Board Approved November 15, 2013***

***Board Revised August 2022***

*The health and safety of all Special Olympics participants is of paramount importance to Special Olympics Missouri (SOMO). Participants should feel that every Special Olympics event is a safe and positive experience and should not be fearful of other athletes, coaches or volunteers.*

*Arranging housing for overnight events involves the consideration of a variety of factors, including the varying abilities, ages and behaviors of athletes, the availability of housing and the costs associated with overnight accommodations. SOMO is adopting the following written housing policy.*

## **POLICY REQUIREMENTS:**

**1. Gender** – Athletes and volunteers may not share a room with an athlete or volunteer of the opposite sex with the following exceptions:

- a. Married athletes who are both attending the event as members of a registered delegation. This exception does not apply to the spouse of an athlete who is not participating in the event but attending solely as a spectator or volunteer.
- b. Married volunteers who are both attending the event as members of a registered delegation. This exception does not apply if one of the volunteers is required to share a room with an athlete (other than the married couple's child), if this scenario will create a situation whereby an athlete is housed with a volunteer of the opposite sex.
- c. Family members of the opposite sex who serve as a one-to-one chaperone for the related athlete.
- d. When a Group Home requires a staff in the room and they send a staff of the opposite sex the Group Home sends a letter stating this and releases Special Olympics Missouri from any liability resulting from any incidents which may occur as a result of the rooming of chaperones with athletes of the opposite sex.
- e. Housing in a facility that has multiple private rooms in addition to living space (such as a condominium or dormitory). Both males and females may be assigned to one condominium, if necessary, but private rooms will not be shared by individuals of the opposite sex. Chaperones must also be housed in the condominium and the chaperone/athlete ratio must be maintained.
- f. Use of barracks or other facility (such as a gym) where a large number of individuals are assigned to one room. Athletes and volunteers must be separated as much as possible by gender (for example, females on one side of the gym and males on the other side).

**2. Supervision** - The chaperone/athlete ratio of at least one properly registered chaperone to every four registered athletes must be maintained during overnight events. Proper supervision can be maintained without having a chaperone present in the room at all times. All chaperones must be screened in accordance with SOMO Volunteer Screening Policy.

- a. Housing will only be provided by SOMO based on the ratio of one properly registered chaperone to every four registered athletes unless an athlete requires one-on-one supervision. An exceptions form must be filed with the area office 1 month prior to the scheduled event for approval.
- b. All head coaches and chaperones must be at least 18 years old, and one adult, at least 21 years old, shall accompany each agency.
- c. Unified Partners may be allowed to act as chaperones provided that they meet the minimum age of 18.
- d. Unified Partners will not be counted as part of the 1 to 4 ratio of coaches to athletes unless they are under the age of 16.

**3. Young Athletes (ages 3-7)** – Young Athletes events that involve overnight activities require increased supervision and therefore, Young Athletes participants must be accompanied by a properly registered and screened parent, guardian or an individual designated by a parent or guardian at all overnight activities. Rooming assignments for Young Athletes should be separate from the remainder of the delegation, whenever possible (for example, separate hotel rooms).

**4. Acknowledgment** – Utilizing the Athlete Physical Form SOMO will secure a parent's/guardian's signature acknowledging they are aware that SOMO has a policy relative to housing arrangements

*and Policy is available on SOMO Website. Athletes who are legally responsible for themselves are permitted to provide acknowledgment on their own behalf.*

- a. New athletes (athletes registering for the first time on or after January 1, 2014) will acknowledge the possibility of overnight stays at the time of their initial registration.*
- b. Existing athletes (athletes registered prior to January 1, 2014) will acknowledge the possibility of overnight stays concurrent with their next athlete medical renewal due date.*

**5. Policy Implementation** – *This policy is in place for any event that requires overnight housing for SOMO athletes and will be the responsibility of the event planner.*

**6. Best Practices**

**a. Rooming Assignments**

- i. Consider matching athletes based on size, level of maturity, ability and age.*
- ii. Assign connecting rooms to those athletes who require additional assistance or supervision if the chaperone will not be in the same room.*

**b. Sleeping Arrangements**

- i. Hotel: It is recommended that each athlete should have their own bed. The number of beds per room can be increased with the use of rollaway or convertible couch.*
- ii. Dorms/Barracks: Each participant should have their own bed and should share rooms with the same gender.*
- iii. Only chaperones and coaches that are registered for the games and have been screened in compliance with the Special Olympics U.S. Volunteer Screening Policy are allowed in SOMO housing.*
- iv. Only chaperones and coaches that are registered for the games and have been screened in compliance with the Special Olympics U.S. Volunteer Screening Policy are allowed in SOMO housing.*
- v. Ensure that the chaperone has a key to the athletes' room(s)*
- vi. Ensure that the athletes know how to reach the chaperone at all times*
- vii. Consider using hall monitors*
- viii. Condo/Dorm (or other facility with multiple private rooms) – Whenever possible, leave the doors to private rooms open so that chaperones can monitor each room.*
- ix. Barracks (or other facility with a large number of beds in one room) – Whenever possible, chaperones should be assigned to a location in close proximity to the athletes he/she is supervising.*

- c. Family Members are prohibited from staying in athlete housing unless the family member is an official member of the registered delegation and is screened in compliance with SOMO Volunteer Screening Policy.*

---

**Minimum distance from a state event to stay overnight** – *Any team within 100 miles of an event may not overnight at that event. If they choose to do so, it is at their own expense.*

## **CONCUSSION AWARENESS and SAFETY POLICY**

*Board Approved January 17, 2015*

### **Introduction**

*It is Special Olympics Missouri's intent to take steps to help ensure the health and safety of all Special Olympics participants. All Special Olympics participants should remember that safety comes first and should take reasonable steps to help minimize the risks for concussion or other serious brain injuries.*

### ***Defining a Concussion***

*A concussion is defined by the Centers for Disease Control as a type of traumatic brain injury caused by a bump, blow, or jolt to the head as well as serial, cumulative hits to the head. Concussions can also occur from a blow to the body that causes the head and brain to move quickly back and forth—causing the brain to bounce around or twist within the skull. Although concussions are usually not life-threatening, their effects can be serious and therefore proper attention must be paid to individuals suspected of sustaining a concussion.*

### ***Suspected or Confirmed Concussion***

*Effective January 1, 2015, a participant who is suspected of sustaining a concussion in a practice, game or competition shall be removed from practice, play or competition at that time. If a qualified medical professional is available on-site to render an evaluation, that person shall have final authority as to whether or not a concussion is suspected. If applicable, the participant's parent or guardian should be made aware that the participant is suspected of sustaining a concussion.*

### ***Return to Play***

*A participant who has been removed from practice, play or competition due to a suspected concussion may not participate in Special Olympics Missouri sports activities until either of the following occurs (i) at least seven (7) consecutive days have passed since the participant was removed from play and a currently licensed, qualified medical professional provides written clearance for the participant to return to practice, play and competition or (ii) a currently licensed, qualified medical professional determines that the participant did not suffer a concussion and provides written clearance for the participant to return to practice play immediately. Written clearance in either of the scenarios above shall become a **permanent record**.*

### ***Required Training and Timeline***

*All coaches are required to complete the following concussion awareness training on-line course:*

- The Center for Disease Control's Heads-Up Concussion in Youth Sports training course, which is available at <https://www.train.org/cdctrain/course/1089818>. Certificate of completion must be submitted to their respective area office.*

*For new coaches beginning after January 1, 2015, this training must be completed prior to being recognized as a coach. Current Special Olympics Missouri coaches must complete this training no later than December 31, 2015.*

### ***Frequency of Training***

*Concussion awareness training must be completed by all Coaches at least once every three years.*

Single line lock-up

Centered lock-up

Web lock-up

**Colors:** The 2-color mark should only be used against white. The following colors are also approved:

Ideally when using a single color the mark should be printed in Special Olympics Red (Pantone® 186), Special Olympics Grey (Pantone® 418) or Black against a light, low-contrast background. The white mark is for use against dark solid colors and appropriate photographic images. A range of secondary colors have been specified to support the primary palette. For a list of approved colors, email [communications@somo.org](mailto:communications@somo.org).

### Additional Notes:

The mark should always be used in its full lockup version (Symbol, Logotype and Program Name) for all initial touch points.

Ubuntu is the preferred typeface of Special Olympics. It has been chosen for its clarity and accessibility both in print and on screen. Ubuntu is available as a free Mac or PC download at [font.ubuntu.com](http://font.ubuntu.com)

*Centered lock-up*

**Colors:** The 2-color mark should only be used against white. - 1. Certificate of Insurance:
  - a. American Specialty Insurance Services handles the issuance of Certificates of Insurance.*
  - b. After completion of the Request for Certificate of Insurance Form, it is to be mailed to the SOMO State Office to be reviewed by the President. The State Office will then forward form to American Specialty Insurance Services. Any request without the President's signature will not be valid.*
  - c. The processing time for a Certificate of Insurance is approximately two weeks.**
- 2. For all automobiles driven by the owners to a Special Olympics event, Special Olympics Incorporated only provides secondary insurance.*

*For all non-owned and hired vehicles used to transport athletes to Special Olympics events, the renter MUST sign next to his/her name "for Special Olympics Missouri." This will allow the automobile to be covered for liability by Special Olympics insurance.*

- 3. Special events conducted by Special Olympics Missouri that include alcohol require a caterer/vendor with a current legal liquor license to provide and/or serve alcoholic beverages. The caterer/vendor shall provide Special Olympics Missouri with a certificate of insurance with at least \$1,000,000 coverage for general liability and liquor liability and list Special Olympics Missouri as additional insured. A copy of this certificate must be forwarded to Special Olympics Missouri Headquarters prior to the event.*

## **REPORTING AN INCIDENT**

*An incident is defined as an accident or event that may result in injury to a person, damage to property, any allegation of negligence or any threat to take legal action against Special Olympics.*

*When an incident occurs, the Special Olympics First Report of Incident form must be completed and submitted to area program staff as promptly and accurately as possible. This allows the claims process to be initiated quickly.*

*It is important that the First Report of Incident form be completed as fully as possible. Always include the name of any witness and a brief description of the actual incident. If more space is needed, use the back of the report form or attach an additional page.*

## **CLAIMS PROCEDURES**

*American Specialty will respond to each incident report as appropriate. In the event of injury to an athlete, coach, Unified Partner or volunteer, an informational letter claim form will be forwarded directly to the individual who sustained an injury. If a parent, guardian, or care provider is indicated on the First Report of Incident form, the claim form will be forwarded to that individual. This letter will explain coverage and procedure for filing any claims.*

## **DESCRIPTION OF COVERAGE**

*This coverage responds to a "covered event" (defined as any scheduled activity authorized, organized and supervised by Special Olympics) or during covered travel (defined as travel directly to or from the location of a covered event; authorized by Special Olympics and supervised by staff member or designated representatives of Special Olympics). This is an accident medical policy not a sickness or illness medical policy.*

*The accident medical insurance policy is excess of any other valid and collectible insurance or medical plan applicable to the injured participant. Individual's insurance is primary carrier and American Specialty is secondary.*

## **COMMUNICABLE DISEASE PRECAUTIONS**

*While risk of one athlete infecting another with HIV/AIDS during competition is close to non-existent, there is greater risk that other blood borne infectious diseases can be transmitted. For example, Hepatitis B can be present in blood as well as in other body fluids.*

*Precautions for reducing the potential for transmission of these infectious agents should include, but not be limited to, the following:*

- 1. Routine use of gloves or other precautions to prevent skin and mucous-membrane exposure when contact with blood or other body fluids is anticipated.*
- 2. Immediately wash hands and other skin surfaces if contaminated (in contact) with blood or other body fluids. Wash hands immediately after removing gloves.*
- 3. The bloodied portion of the uniform must be properly disinfected, or the uniform changed before the athlete may participate.*
- 4. Clean all blood contaminated surfaces and equipment with a solution made from a 1-10 dilution of household bleach or other disinfectants before competition resumes.*

5. *Practice proper disposal procedures to prevent injuries caused by needles, scalpels and other sharp instruments or devices.*
6. *Although saliva has not been implicated in HIV transmission, to minimize the need for emergency mouth-to-mouth resuscitation, mouthpieces, resuscitation bags, or other ventilation devices should be available for use.*
7. *Athletic trainers/coaches with bleeding or oozing skin conditions should refrain from all direct athletic care until the condition resolves.*
8. *Contaminated towels should be properly disposed of and/or disinfected.*

*Follow acceptable guidelines in the immediate control of bleeding and when handling bloody dressings, mouthparts and other articles containing body fluids.*

## **GENERAL / MISCELLANEOUS INFORMATION for COACHES**

- *Rule changes -- Coaches can submit rule changes to the Sports Management Advisory Council (SMAC) (See Appendix for form)*
- *SOMO strongly encourages all coaches to use the approved medical form (See Appendix). This form should be filled out and kept updated and used for all events.*

## **STATEMENT of ELIGIBILITY**

### **Age Requirements**

There is no maximum age limitation for participation in Special Olympics. The minimum age requirement for participation in Special Olympics competition is eight years of age. The Young Athletes program introduces children, two to seven years old to the world of sport, with the goal of preparing them for Special Olympics sports training and competition when they get older. In addition, an Accredited Program may permit children who are at least six years old to participate in age-appropriate Special Olympics training programs offered by that Accredited Program, or in specific (and age-appropriate) cultural or social activities offered during the course of a Special Olympics event. Such children may be recognized for their participation in such training or other non-competition activities through certificates of participation, or through other types of recognition approved by SOI which are not associated with participation in Special Olympics competition. However, no child may participate in a Special Olympics competition (or be awarded medals or ribbons associated with competition) before his or her eighth birthday.

### **Degree of Disability**

Participation in Special Olympics training and competition is open to persons with intellectual disabilities who meet the age requirements of this Section 2.01, and whether or not that person also has other mental or physical disabilities, so long as that person registers to participate in Special Olympics as required by these General Rules.

### **Identifying Persons with Intellectual Disabilities**

A person is considered to have an intellectual disability for purposes of determining his or her eligibility to participate in Special Olympics if that person satisfies any one of the following requirements:

1. The person has been identified by an agency or professional as having an intellectual disability as determined by their localities; or
2. The person has a cognitive delay, as determined by standardized measures such as intelligent quotient or "IQ" testing or other measures which are generally accepted within the professional community in that Accredited Program's nation as being a reliable measurement of the existence of a cognitive delay; or
3. The person has a closely related developmental disability. A "closely related developmental disability" means having functional limitations in both general learning (such as IQ) and in adaptive skills (such as in recreation, work, independent living, self-direction, or self-care). However, persons whose functional limitations are based solely on a physical, behavioral, or emotional disability, or a specific learning or sensory disability, are not eligible to participate as Special Olympics athletes, but may be eligible to volunteer for Special Olympics.

## ***ATHLETE RESTRICTIONS***

- 1. Athletes are discouraged from driving to events on their own. American Specialties will not cover any athlete driving to an event on his/her own or riding with another athlete. Therefore, it is strongly urged that no athlete drive to and/or from an event*
- 2. Athletes must adhere to the following dress code during a Special Olympics event;*
  - There shall be no butts, bras, breasts, bellies, boxers, briefs, or backs showing during any part of a Special Olympics event.*

  - 2. Eligibility for all individual sports will be determined by participation at area competitions.*
  - 3. Eligibility to advance will ultimately be determined by the available courts, lanes, or space for competition at the next level.*
- 

## **COMPETITION DIVISIONS – EQUALIZING COMPETITION**

- 1. In keeping with the Special Olympics philosophy that every athlete should be encouraged to perform to the best of his or her ability and should have a reasonable chance to win while competing against fellow athletes of similar ability, athletes are placed in competition according to the following guidelines:*
    - a. Athletes shall be divided into competition divisions based upon their age, gender and ability.*
    - b. Competition divisions shall be established so they are "even." An even division is one in which all participants based on performance records, have a reasonable chance to win.*
    - c. In structuring even divisions for individual sports, participants shall be ranked in descending order of performance. The difference in times of performance scores between the best performing athlete in a division and the lowest score shall not normally differ by more than 10 percent where feasible.*
    - d. In team competition, the team assessment scores and/or regional competition and evaluation is used for determining divisions.*
    - e. SOMO may combine age groups that are within one age group of each other, or they may combine teams/individuals of opposite genders as long as ability levels are the same. The minimum number of participants/teams per division shall be two unless determined to be unfair by the Games Rules Committee.*
    - f. ONLY female alternates may be used on female teams.*
    - g. Up to two individual skills athletes and two team athletes may be absent at area and/or districts and still be eligible for state at the discretion of the area program staff.*
    - h. Athletes may compete in ONE team sport and ONE individual sport at state events.*
-

  - 4. The protest form is given to the Games Rules Committee (See Appendix).*
  - 5. The Games Rules Committee shall meet, review the protest and make a determination whether or not a rules' violation was committed, as soon as the protest is received. Appropriate action will be taken as a result of the determination.*
- 

## **SELECTION for HIGHER COMPETITION – USA GAMES/WORLD GAMES**

- 1. To advance to a higher level of competition in a particular year, an athlete must have participated for a minimum of eight weeks in an organized training program in the sport or sports in which he or she is entered for higher-level competition (A planned regimen of training under a volunteer coach, teacher or parent is considered an organized training program).*

2. *To advance to a higher level of competition, an athlete must have placed 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> at the lower level of competition in the same sport or sports (e.g. an athlete may not advance to World Games/Multi-National Competition in a given sport unless he or she has competed in that sport at state/area competition and placed 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup>).*
3. *Athletes should be chosen for higher-level competition by random selection from among 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> place winners from all divisions by event. Athletes selected may also enter other events in which they have not placed 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> at the next lower level competition.*

*National/area Programs may establish additional criteria for advancement to higher level competition based on behavior, medical or judicial considerations. These criteria would be applied to athletes on an individual basis. Additional criteria should not conflict with any part of the Official Special Olympics Sports Rules.*

4. *When conditions exist which preclude all 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> place winners from advancing to higher level competition (e.g. a chapter has 100 1<sup>st</sup>, 2<sup>nd</sup> or 3<sup>rd</sup> place winners in the 100 meter dash and a quota of five athletes for the 100 meter dash at the next World Games), athletes shall be selected as follows:*
  - a. **First priority:** *athletes shall be 1<sup>st</sup> place winners in at least the event at the next lower level of competition. If the number of 1<sup>st</sup> place winners exceeds the quota, athletes shall be chosen by random selection from among all division winners.*
  - b. **Second priority:** *Athletes who were 2<sup>nd</sup> place finishers in the event shall be chosen next by random selection, then 3<sup>rd</sup> place finishers.*
  - c. *A team having no competition at a specific level shall be declared a winner. The team shall not receive a place award; however, the team shall be eligible to advance to the next higher level of competition.*
5. *An athlete shall not be barred from future competition because of prior competition at a World Games (e.g. an athlete who competed in the 1995 Summer World Games is eligible to compete in the 1999 Summer World Games unless he or she fails to meet some other eligibility criterion). However, a lower priority will be given to any athlete that has already participated at a World Games.*
6. *The above criteria shall be used for selecting athletes for advancement to World Games and any other higher levels of competition.*
7. *All Special Olympics Missouri athletes shall be given the chance to either be nominated or apply to advance to the next higher level of competition provided that they meet the above criteria.*
  - a. *A random selection of at least three athletes per slot shall be selected to attend a Selection Camp.*
  - b. *Based on the behavior, medical, and judicial considerations of those attending the Selection Camp, athletes will be selected to advance to the next higher level of competition.*

---

## **AWARDS**

1. *In accordance with Special Olympics Inc.'s policies (General Rules I.E. 14), each athlete at all competitions will receive some type of award for their participation regardless of their finishing placement. If an athlete is disqualified for a rule infraction or is unable to continue an event, they shall be awarded a participation ribbon.*
  - a. **Local and area competitions:**

- i. All areas shall use medals for 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place winners and ribbons for 4<sup>th</sup> through 8<sup>th</sup> place winners.*
      - ii. Areas have the option of using local size medal (1 3/8") or area size medals (1 5/8") for their area games.*
      - iii. Medals are **not** required for local competitions.*
    - b. Regional competitions:**
      - i. Sectional size medals (1 3/4") shall be distributed for 1<sup>st</sup> through 3<sup>rd</sup> places and ribbons shall be distributed for 4<sup>th</sup> through 8<sup>th</sup> places at all regional events (basketball and softball).*
    - c. State competitions:**
      - i. Medals are distributed for 1<sup>st</sup> through 3<sup>rd</sup> places and ribbons are awarded for 4<sup>th</sup> through 8<sup>th</sup>.*
      - ii. State level competitions shall use the summer medal (2").*
- 2. All official Special Olympics medals must be purchased through SOI's official supplier, Midwest Trophy & MTM Recognition. A catalogue may be obtained by calling 1-800-324-5996.**
